- Q&A – Review all topics

The majority of our discussions will focus around the state study manual. The Gold Coast Workbook will be utilized, both during class and on your own, to review common concepts and provide questions, answers, and rationale.

This cram class is taught at fast-pace. It is designed to condense that material and hone in on the key concepts needed to pass the state exam. Your tuition allows attendance at any of our Property & Casualty Exam Cram session for up to 1-year at no addition charge, on any of our campuses.

We look forward to seeing you!
