

Online Course System Requirements

Device Support:

This online course is designed to run on many mobile devices*, including iPad, in addition to personal computers. Please refer to the list of supported browsers below.

Supported Browsers:

- Windows: [Google Chrome](#) (latest version), [Mozilla Firefox](#) (latest version)
- Mac: [Safari](#) (latest version), Google Chrome (latest version), Firefox (latest version)
- Internet Explorer 11, Microsoft Edge (latest version) are supported with many courses, but not all. If you are experiencing problems with your course on IE or Edge, we suggest switching to one of the other supported browsers listed above.

*Mobile devices: There are many different mobile devices in the marketplace, and many have individual device-specific limitations. We cannot guarantee that the course will operate correctly on your mobile device. In general, the newer the device, and the more memory it has, the better the chance it has of working.
